Two Alumni Projects

By GLEN MCCOLPIN, *President*

Glen McColpin

Greetings, fellow alumni, from all the Alumni Association staff! The new SMC Alumni Association has met and many plans for 1964 have been made, but we need your help to make them a success.

Your Alma Mater is certainly pushing forward. Those who have not visited the campus in the last four years would hardly recognize "dear old Collegedale." There is a new shopping center, a women's dormitory and several additions to the old buildings, thus completely changing the physical plant. The construction of the new Collegedale church is to begin this summer.

Not only is Southern Missionary College pushing forward in enlarging the physical plant, but the student body is also enlarging by "leaps and bounds." SMC has more students this year than ever before, and more students mean that the Worthy-Student Fund needs much more money to get some of these students over a financial hump. The association needs your financial support to help as many of these students as it possibly can.

The Alumni Association voted to put up a Southern Missionary College sign on the campus as their contribution to the new building program. The time for the installation of the sign has almost arrived, but there aren't sufficient funds in our treasury to allow us to do this. If each alumni member could send the association $2.00, we could install our sign and have some money to add to the Worthy-Student Fund.

We want to extend a special invitation to the most unique homecoming (October 9-10) that Collegedale has ever experienced. Make plans now to join your many classmates on our campus during that weekend. However, if for some reason you are unable to attend, it is our prayer that all of us meet in that great homecoming above.

It seems that the giving is much better in all of Pakistan this year because of the work that the heart team did in Karuchi. We are planning a short furlough for this summer. Now, several months later, we are happy to report a first baptism of fifteen precious souls."

Swimming Pool Being Constructed Along with Gym

The swimming pool for the Physical Education Center is now under construction, and an early date for its completion is planned by the college administration.

The contract has been let to Cox Engineering Co. of Birmingham, in the amount of the basic contract—$25,000.

According to Charles Fleming, Jr., SMC business manager, the pool itself came to $25,000 and the ceramic tile decking, which will be installed by the college, will come to another $5,000, making a total of $30,000.

This total of $30,000, raised recently by the student body and college staff, was achieved in approximately six weeks. The campaign was headed by SA President Bert Coolidge and other SA officers.

At the present time the college administrators and the executive committee of the COMMITTEE OF 100 are making plans for the covering of the swimming pool area in connection with the construction of the basic gymnasium building. It is hoped that the financing of this will be worked out within the next two or three weeks.

The board of trustees of the SMC COMMITTEE OF 100, INC., will be meeting on the campus in connection with the annual college board meeting and will give study to some further plans for the building and its completion.

It is hoped that the entire building will be completed and in use before the end of the college year.
